

known as Be The Match, has undertaken a laudable effort to connect transplant patients with healthy, unrelated donors through the Be The Match Registry. Today, the registry includes more than 9.5 million registered donors. Despite their success in raising awareness and soliciting support, a small percentage of our population is registered. Patients from ethnic and minority communities face particular difficulty in finding matches due to limited diversity within the registry, further complicating the search for a viable genetic match. Deutsche Knochenmarkspenderdatei gGmbH, DKMS, currently the largest bone marrow donor center in the world, shares Be The Match's commitment to increasing donor recruitment and diversifying the marrow donor registry.

This year, marrow donor registry drives will take place in communities across America. One in particular, known as Simon's Saturday, will take place in Emmaus, PA. The bone marrow donor drive is named after Simon Ernst, an energetic 8-year-old from Upper Milford, who is bravely battling leukemia and awaiting a bone marrow transplant. Participation in the marrow donor registry is simple and safe. Interested participants must meet the age and health requirements, fill out a registration form, and provide a swab of cheek cells. I would like to encourage those interested to attend a bone marrow drive in their community or to join online by visiting the NDMP website at www.BeTheMatch.org or the DKMS website at www.getswabbed.org.

The bone marrow donor program is a cause close to my family's heart, which is why I intend to participate in a bone marrow registry drive on February 18, 2012. This issue is especially important to my wife Kris, who has been a registered donor through Be The Match for the last 16 years, and I look forward to joining her and the more than 9.5 million individuals who have already joined. Together we can help provide hope and save lives.●
